## Gifted Mind The Dr. Raymond Damadian Story, Inventor of the MRI

---

By Raymond Damadian

Master Books. Paperback. Book Condition: New. Paperback. 192 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. One man's search for truth on a personal journey of invention and faith! How his concept for cancer detection was inspired and developed into the first MRI machine. Why faith became an integral part of his work. Why he is a strong supporter of the creativity and freedom found in patents. Today, magnetic resonance imaging machines (MRIs) and similar technologies are saving lives in hospitals and clinics throughout the world. In 1969, this kind of technique was just an idea in the visionary mind of Dr. Raymond Damadian. As a young boy, he watched his grandmother die painfully from breast cancer. Dr. Damadian would eventually decide on a career in medical research and pioneer this field of amazing research. Although in 1971 his concept of detecting tumors through magnetic resonance imaging was widely met with skepticism, he became the first researcher to do a full-body scan of a human being in 1977 in order to see if there was cancer present. His life has been an incredible journey of discovery. From resourcefully creating his discoveries on a shoestring budget to a battle with the business behemoth...

### Reviews

*I actually started out looking at this publication. it was actually written really perfectly and useful. Its been written in an extremely simple way and it is only soon after i finished reading through this pdf by which really modified me, change the way i really believe.*

-- **Breanna Kerluke**

*The best book i actually go through. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Prof. Greg Herzog**
