

The Universally Designed Classroom: Accessible Curriculum and Digital Technologies

By David H Rose, Anne Meyer, Chuck Hitchcock

Harvard Educational Publishing Group. Paperback / softback. Book Condition: new. BRAND NEW, The Universally Designed Classroom: Accessible Curriculum and Digital Technologies, David H Rose, Anne Meyer, Chuck Hitchcock, This book addresses crucial questions about how to create full access to the general education curriculum for children with disabilities. Based on years of research and innovation at CAST (The Center for Applied Special Technology), the book provides a helpful overview of the digital solutions that are at the forefront of efforts to create universal access. It also looks closely at the major policy and practice issues connected to this initiative. The book appears at a pivotal moment in special education policy and practice. The recent reauthorization of the Individuals with Disabilities Education Act (IDEA), together with the No Child Left Behind Act (NCLB) and a general trend toward more inclusive education policies, has laid the groundwork for fully addressing the educational needs and abilities of children with disabilities of many kinds. Complementing these legal and social trends are remarkable new technologies designed to facilitate the education of those same children. Universal Design for Learning, or UDL--a network of methods, technologies, and materials developed at CAST--stands at the vanguard of this new...
