*It is just one of my personal favorite books. I was able to comprehend every little thing out of this published publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Excerpt: .students who are rightly skeptical of all assertions which savor of nothing but dogmatism. To quote further samples: But how do we know that the prohibition of stammering is a remedy for it? Why millions have been cured by it (159, p. 387). Let us assume some other cause and see what the assumption leads us to. This cause must appear and disappear synchronously with stammering (162, p. 156). Where is Tompkins evidence for the latter statement--considering the possibility of stuttering being due to a combination of several contributing factors? From such a premise as the last quoted statement, the conclusion is reached: Consequently there can be no other explanation of stammering than collision between normal and conscious speech (162, p. 156). These numerous quotations are here given at length not because they deserve special attention--they seem rather trivial--but because they illustrate well the dogmatism, eccentricities in logic, etc., which are far too common in the great mass of literature on stuttering. Surely, if the much-bewailed confusion in this field is to be dispelled, it will have to be done by other means than dogmatism or eccentricities in logic. Attempts to explain the numerical predominance of male stutterers have usually consisted of little more than guesses. The ration of male to female stutterers in the school population is reported as about 3 to 1. In adults it is reported as about 9 to 1, which indicates that girls may be more apt to recover...
