Readable, straightforward, educational, it is a superb reference that blends the educational aspect of a typical book on learning Linux with a typical book of command line references. I highly recommend A Practical Guide to Linux(R) Commands, Editors, and Shell Programming." --Harold D. McFarland, Editor, Readers Preference Reviews "I keep searching for books that collect everything you want to know about a subject in one place, and keep getting disappointed. Usually the books leave out some important topic, while others go too deep in some areas and must skim lightly over the others. A Practical Guide to Red Hat(R) Linux(R) is one of those rare books that actually pulls it off. Mark G. Sobell has created a single reference for Red Hat Linux that cannot be beat! This marvelous text (with a 4-CD set of Linux Fedora Core 2 included) is well worth the price. This is as close to an 'everything you ever needed to know'...
